🔗 My Portifolio

## Profile

I am a proficient MERN Stack Developer with strong expertise in building scalable, full-stack web applications. I specialize in developing high-performance backend services using **Node.js** and **Express**, and crafting responsive, user-friendly interfaces with **React.js**. My experience includes integrating **MongoDB** databases, deploying applications with **Git** and **Docker**, and following best practices in clean code and software architecture. I am highly motivated to learn, solve problems, and deliver impactful software solutions.
## Education

| | |
|---|---|
| 2023 – 2027 <br> Assuit, Egypt | **Bachelor's** <br> *New Assiut University of Technolog* |

## Projects

**2025/01 – 2025/07**   **Graduation Project** ⬈
*Student Housing Platform*
- Developed the backend of a full-stack web application that facilitates student housing by acting as a mediator between property owners and students. The platform provides separate feature sets for each user type, including online payments, digital contract creation and storage, real-time notifications, and more.
- Utilized: Node.js, Express, MongoDB, HTML, CSS, Bootstrap, JavaScrip

**2024/12 – 2024/12**   **Portifolio**
*Front-End*
- Developed a personal portfolio website to showcase completed projects and technical skills.
- Utilized: HTML, CSS, Bootstrap.

**2024/11 – 2024/12**   **Electronic devices Store**
*Front-End*
- Developed a responsive e-commerce website for electronic devices, featuring user registration, Swiper.js sliders, product details, cart and checkout pages, plus static sections like Products, About Us, and Contact.
- Utilized: HTML, CSS, Bootstrap, JavaScript, Swiper.js

**2024/08 – 2024/09**   **Sport Store** ⬈
*Front End*
- Developed a multi-page shoe store application with interactive features using JavaScript, product sliders powered by Owl Carousel 2, and responsive styling with Bootstrap.
- Utilized: HTML, CSS, Bootstrap, JavaScript, jQuery, Owl Carousel 2

**2024/08 – 2024/08**   **The World** ⬈
*Front-End*
- Developed a modern multi-section website with unique and interactive layouts. Integrated smooth animations and achieved full responsiveness using media queries.
- Utilized: HTML, CSS

| 2024/05 – 2024/05 | **Safaree** ⬈ |
|---|---|
| | *Front End* |

- Developed a fully responsive travel website using Bootstrap components for smooth responsiveness
- Utilized: HTML, CSS, Bootstrap

| 2024/04 – 2024/04 | **M~Store** ⬈ |
|---|---|
| | *Front-End* |

- Developed a static women's fashion store website featuring product display sections and other sections .
- Utilized: HTML, CSS

| 2024/03 – 2024/03 | **Simple project** ⬈ |
|---|---|
| | *Front-End* |

- Developed a static company portfolio website with a multi-section layout.
- Utilized: HTML, CSS

## Certificates

**Front End Diploma** ⬈       **C language (Teracourses)** ⬈       **ECPC(egyptian collegiate programming contest)** ⬈

**Web desgin (NTI)** ⬈                                                            In solving problems
